10

Question-1

Consider two propositions p and q . Now explain the following terminologies.

- A. Inverse of $p \rightarrow q$
- B. Contrapositive of $p \rightarrow q$
- C. Converse of $p \rightarrow q$

Explain the validity of the following statement using a Truth Table.

"Although the Inverse and Converse of $p \rightarrow q$ are not equivalent, the Contrapositive is equivalent to $p \rightarrow q$."

Answer:

Question-2

04

Illustrate the key difference between the *Disjunction* and *XOR* operations over two propositions with suitable examples.

Answer:

Question-3

06

Consider the following two propositions:

- p : Bangladesh wins if and only if Bangladesh plays at Mirpur.
- q : Either Bangladesh plays at Mirpur, or Bangladesh wins.

Prove using a truth table that both p and $\neg q$ have the same truth value.

Answer:
